

**NOTICE OF AVAILABILITY OF FEASIBILITY STUDY  
AND REMOVAL FROM WQARF REGISTRY  
EAST CENTRAL PHOENIX  
38TH STREET AND INDIAN SCHOOL ROAD  
WATER QUALITY ASSURANCE REVOLVING FUND (WQARF) SITE**

The Arizona Department of Environmental Quality (ADEQ) has completed the feasibility study (FS) for the East Central Phoenix (ECP) 38th Street and Indian School Road Water Quality Assurance Revolving Fund (WQARF) site (Site) in Phoenix, Arizona. A FS is conducted to identify a reference remedy and alternative remedies that appear to be capable of achieving established remedial objectives and to evaluate them based on the comparison criteria to select a remedy. However, identification and screening of remedial technologies and alternatives are not necessary because groundwater at the Site no longer exceeds the Arizona Aquifer Water Quality Standard (AWQS) of 5 micrograms per Liter ( $\mu\text{g/L}$ ) for tetrachloroethene (PCE).

Pursuant to Arizona Revised Statutes § 49-287.01(K), the Arizona Department of Environmental Quality (ADEQ) made a determination that no further remedial action is necessary at the Site and has removed the Site from the WQARF Registry. The basis for this determination is contained within the FS.

The Site consisted of a plume located in Phoenix, Arizona. The plume boundaries were defined by the areal extent of the former PCE groundwater above the AWQS of 5  $\mu\text{g/L}$ , which was bounded by Indian School Road to the north, East Piccadilly Road to the south, 38th Street to the east, and 35th Street to the west.

A copy of the FS and other Site related information is available online at: <http://www.azdeq.gov/node/915>, and at the ADEQ Records Center, 1110 W. Washington Street in Phoenix, (602) 771-4380, or 1 (800) 234-5677, ext. 6027714380; please call for hours of operation and to schedule an appointment.
